

Enjoy a nice corndog on a stick before trying to win your date a teddy bear!

A night at the fair!

# Carnival

The carnival is a fun place to take a break from life and get away from it all.

BY ESTELLA HEATH

The fair is a great, fun place for family and friends to gather. A night at the fair or carnival usually includes, rides, food (hot dogs, cotton candy) and games.

The Ferris wheel is a classic ride and at night you can see the lights from the fair at the top. The view from the top of the Ferris wheel is priceless. On a nice summer night walking around the fair can be a great outing. The screams of joy fill the air as rides go careening around the park.

Wooden rides, water rides, bumper cars, and tea-cups are just a few of the classic attractions that can be found. And what would the fair be like without fried food? Deep-fried corn dogs, funnel cakes, corn on a stick, some food you can only find at the amusement park! And if you throw the right ball through the right hoop you just may make it out with a giant panda bear.

So next time you are thinking of a great place to get out and see the family thing of your local fair or carnival! And have a night to remember.
